REINFORCE related artifacts are shared on the Github Link:

https://github.com/sameergk/REINFORCE_Supplements

REINFORCE_artifacts.rar file contains the necessary evaluation scripts, generated dataset and plot tools.

Artifacts include the following:

1. Scripts: Bash scripts to automate the evaluation tests.
2. Dataset: Dataset generated/used in the evaluation.
3. Plots: Scripts used to derive the plots in the paper.
4. Link to the source code (currently a private (controlled) repository, will be made accessible to public.
